```javascript
// async disposal
async function* run() {
    using stream = acquireStream(); // block-scoped critical resource

} // cleanup

{

    await using obj = run(); // block-scoped declaration
    const r = await obj.next();
} // calls finally blocks in `g`
```

```
[SymbolDispose]() {
  this.reset();
}
```

```
// async disposal
async function* run() {
    using stream = acquireStream(); // block-scoped critical resource

} // cleanup

{

    await using obj = run(); // block-scoped declaration
    const r = await obj.next();
} // calls finally blocks in `g`
```

```
[SymbolDispose]() {
  this.reset();

}
```

test: add Symbol.dispose support to mocktimers #48549
